About the Crown Tournament

The Crown Tournament has become one of Mamanet's most celebrated events. An annual international tournament, with teams of mothers from all over the world. During the tournament, teams from abroad play with Israeli teams. In the course of the three-day tournament, the mothers, are creating meaningful relationships with other participants. They share various activities such as tours of Jerusalem, visits to markets, and shared meals. The tournament provides a healthy and safe environment for mothers. Along with the sportive activity, the women are creating a strong social network. The players exchange information about the local Mamanet leagues, the sports activities, and the community projects that are done in each country.

The Covid-19 pandemic also took its toll on mothers everywhere - research shows that social distancing has caused damage to mental and physical resilience among individuals, especially women. In light of that, Mamanet would like to offer the Crown Tournament - to promote and strengthen rehabilitation efforts from the Covid-19 damages worldwide.

Sincerely yours

Ofra Abramovich – Chairwoman
MAMANET

Karin Eines – CEO
